POINTS OF INTEREST

- Today, Nestlé's leadership in the food industry is evident just about everywhere people go to enjoy food — from grocery aisles to convenience store shelves, as well as in club stores, restaurants, hotels, schools and stadiums across the country. Proven food experience, wide-ranging resources and constant research fuel Nestlé's growing family of brands. For example, food trends, timesaving cooking tips and new meal solutions are constantly being explored and developed by the Nestlé USA Culinary Center, adding daily to Nestlé's ever-growing expertise and collection of delicious recipes.
- Our "good living" philosophy also extends into the community. At Nestlé, we believe that for a business to be successful in the long term it has to create value for society. We call this *Creating Shared Value*, and it is a fundamental part of our business strategy. Through employee volunteer programs, partnerships with non-profits, and support of health and wellness organizations and initiatives, Nestlé USA regularly contributes to the communities where we live and work.
